

Market Report

2015 Week 21

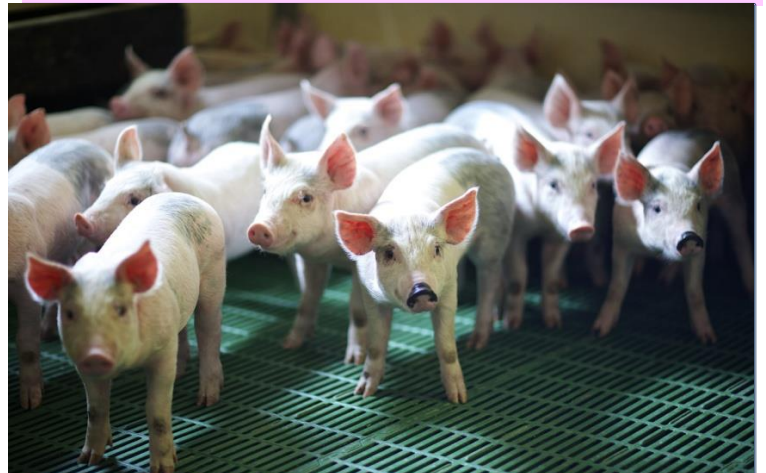

Today saw another round of stand on for UK pig price. At a time when slaughter pig numbers have dwindled we should be seeing a positive rise even if it is seasonable.

All the major processors have stood on and all our bacon pigs entered have moved. On the fresh meat front a very similar pattern has happened with all pork and cutter pigs entered finding a home at stand on prices.

Weaner's both 7Kg and 30Kg have changed little with maybe just a few less offered for sale.

Sow slaughtering's have again stabilized due to some stability in the EU market place. We could really do with some positive information up to date on the levels of sow culling's in the member states because 2 or 3% reduction across Europe would have a big impact on pigs produced in the future, in the short and medium term we are not going to see Russia open its doors to EU pig meat so an alternative Market Place needs to be found for exportable surplus including fat and offal from the EU rather than placing pork in AID TO PRIVATE STORAGE.
