

Market Report

2021 Week 48

This week we have seen much of the same in pig marketing as in previous weeks although the EU spec SPP rose ever so slightly by 0.15p to stand at 144.31p/kg. Estimated slaughtering's for the week was 196,200 head which was up on the week and the year by 11k and 21k head respectively, this was probably since a number of abattoirs took on a Saturday kill although they were only a limited numbers of spot priced pigs. Again, we have seen weights rise, there is still a large amount of rolled pigs sat out within the industry and we have had reports that pigs have been welfare culled on producers' farms.

If we could just get some processors to take a few more pigs before Christmas then hopefully we could see pig weights come down a little, with average carcass weights topping 92kgs.

All processors have stood on this week, with the fresh meat market taking a limited number of pigs their prices have been steady but hopefully they will up their game for more pigs on the run up to Christmas. The cull sow trade has stood on but there are difficulties in Germany with Covid 19 disruptions.
